

The Moore Soil and Water Conservation District is now accepting orders for the 2011-2012 planting season. The best time to plant trees is December through March. You may place your order for trees to be picked early December. We will notify you by phone when they arrive.

Orders will continue as long as supplies last. You are urged to order early due to species being sold out as the order season progresses. This year there are six selections to choose from: Containerized Longleaf at 60 cents each; Kousa Dogwood, at \$3.00 each (3ft), Sugar Maple (2ft) for \$2.50, and the Yoshino Cherry (2ft) for \$ 6.00. We are offering the Yellow Delicious Apple and the Arkansas Black Apple for \$7.50 each. Please note that the apple trees will take approximately 5 years to bear fruit.

To place your order, mail your check made payable to the Moore Soil and Water Conservation District, P.O. Box 908, Carthage, NC 28327. Please enclose a note listing the kind and number of trees desired. Make sure to include your name, address, and telephone number . If you have questions concerning the order please call 947-5183, extension #3. Don't delay; orders are taken until they are filled.
